The Dangerous Goods application DGPlus has been developed by JD Knowledge specifically for companies handling dangerous goods. This service is aimed at correctness and efficiency, i.e. accuracy in reporting and time savings in case of checks. Better performance with lower costs. Simply browse online through the legislation you need, and print the official documents needed to transport a dangerous goods shipment.

We provide the following publications:

- ADR (Transport of dangerous goods by road)
- IMDG Code (Transport of dangerous goods by sea)
- ADN (Plus) (Transport of dangerous goods by inland waterways)
- RID (Transport of dangerous goods by railway)
- ICAO (Transport of dangerous goods by air)

JD Knowledge is also publisher of these law books.
Please contact us or check our website www.dg.plus to order these books.

Bronze, Silver, Gold or Platinum subscription
Effective, efficient, accurate and safe working with dangerous goods.
DGPlus is available in four different subscriptions; Bronze, Silver, Gold and Platinum.
Bronze is the basic version of DGPlus 2.0. With this subscription you are able to have access to the legislation and dangerous goods list. You can easily upgrade to the Silver, Gold or Platinum version.

In the following overview you can check which features are available for the different subscriptions.

PRICE OVERVIEW DGPLUS	BRONZE € 25,- per month	SILVER € 69,- per month	GOLD € 99,- per month	PLATINUM € 149,- per month

With DGPlus you are able to:
- Check segregation of a shipment
- Calculate ADR Points
- Rename your own dangerous goods
- Print shipper labels
- Make your own shipment
- Generate the official transport documents
  (CMR / IMO / Shippers Declaration)
- Print tremcard labels

Webservice
In addition JD Knowledge also provides customized services. Data that have to accompany dangerous goods to external companies (like PSN, UN number, IMO class, packing group and flash point) can be tailored to your needs. JD Knowledge may supply any additional data, if so desired, as JD Knowledge manages its own database with all transport modes for dangerous goods in two languages.

If you have any questions, please don't hesitate to contact us.
